## **Accessibility Plan**

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act.

The Department for Education (DfE) has published advice on the Equality Act for schools, which explains on page 29 that schools must have an accessibility plan aimed at:

- Increasing the extent to which disabled pupils can participate in the curriculum
- Improving the physical environment of schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improving the availability of accessible information to disabled pupils

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan over a prescribed period.

The plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable.

The plan contains relevant and timely actions to:-

1. Increase access to the curriculum for pupils with a physical disability and/or sensory impairments, expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
2. Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
3. Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

It is a requirement that the school's Accessibility Plan is resourced, implemented and reviewed and revised as necessary. Attached is an action plan, (Appendix 1) showing how the school will address priorities identified in the plan.

### Definition of disability according to the Equality Act 2010

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”.

According to the Equality Act 2010 a person has a disability if:

- a) He or she has a physical or mental impairment, and
- b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

The plan is structured to complement and support the school's Equality Objectives, and will similarly be published on the school website. Staff are made aware of the plan through meetings and relevant training sessions. Parents and pupils can access the plan by download from the school website or by request from the school office.

## Review and monitoring
